up to date COVID-19 restrictions.

PROGRAM UPDATES

TODDLER & PRESCHOOL

The Toddler & Preschool Program at Tobermory Primary Place has had a heavy interest in everything nature and seasonal! We have been going on long trail walks to feed the birds, identify animal tracks, and visit the nearby lookouts. We are very interested in researching our findings and learning more information about things like mushrooms and types of animal tracks.

AFTER SCHOOL PROGRAM

The After School Program is a great opportunity for school aged children to further engage in social relationships while learning about the real world around them. We have been particularly interested in geodes and observing samples under a microscope, as well as imaginative play. You can often find some school agers running their own little store complete with menus, monetary exchanges, and receipts!
